

**EN**      **Nail pockets, bags**

**Material:**                      600D/100% Polyester

**Description:** The products are made of high-quality textile materials. The inner part is divided into 1 or more pockets.

**Storage:** Do not store in places exposed to direct sun. Keep in closed dry places, protect against radiative heat emitted by heaters, not closer than 1 m from heaters. If the product is wet, leave it to dry out at room temperature and store only when it is dry.

**Maintenance:**

*Textile material*

shall be cleaned by brushing based on the type of the textile and nature of the dirt; wiped if wet; stain remover shall be applied to any greasy stains.

The product must not be washed. Only hand cleaning at 30 °C is allowed. Do not bleach, tumble dry, wring, twirl, iron and/or clean chemically.

- Hand cleaning:**
1. Water 30 °C – soft cloth, sponge or soft brush.
  2. Gentle laundry detergent or cleaning agent – pure alcohol.
  3. Rinse it after cleaning and leave to dry out perfectly at room temperature. Shape it and dry unfolded.

**WARNING:** If the product is used, stored, or treated differently than as specified here in this document, it may be destroyed or its functions may be changed.

**Warranty:** The warranty does not apply to manufacturing defects or other contradictions with the sales contract, e.g. missing parts, unravelling seams as a consequence of bad sewing etc.

**The warranty does not apply to:** Any change of the product (or its properties) that occurs during the warranty period as a consequence of its wear, inappropriate use, overloading, insufficient or inappropriate maintenance as a result of natural changes of the materials which the product is made of, any damage caused by the user or a third party or other inappropriate interference cannot be regarded a defect.

**Warranty period and lifespan** are different terms. The lifespan of a product is given by the way and intensity of its use, which does not have to be the same as the warranty period. This means that with intensive use the lifespan of the product can be shorter than the warranty period. The warranty period of the product purchased is 24 months. Recognition of a warranty claim expires with expiration of the warranty period.
